## INFORMATION

### I. INTRODUCTION

Current Texas Department of Health (TDH) contractors receiving Federal Sexually Transmitted Disease (STD) Services funds from the TDH are requested to submit an interlocal application for the January 1, 2004 through December 31, 2004 budget period. The contracts will begin on or about January 1, 2004 and will be for a 12-month budget period.

The TDH reserves the right to negotiate any terms and conditions including budget amounts and allocations. Any contract renewal is contingent upon the continued availability of funding to TDH.

The TDH reserves the right, where allowed by legal authority, to redirect funds in the event of financial shortfalls. The TDH will monitor contractors' expenditures on a quarterly basis. If expenditures are below that projected in contractors' total contract amounts as shown, contractors' budgets may be subject to a decrease for the remainder of the contract term. Vacant positions existing after ninety (90) days may result in a decrease in funds.

The purpose of the Federal STD subgrants is to conduct programs to control and prevent the spread of STDs, including human immunodeficiency virus/acquired immunodeficiency syndrome (HIV/AIDS) and viral hepatitis. STD and HIV/AIDS control and prevention in the State of Texas consists of six core activities:

- Community and Individual Behavior Change
- Medical and Laboratory Services
- Partner Services
- Leadership and Program Management
- Surveillance and Data Management, and;
- Training and Professional Development.

Specific objectives under each of the core activities are:

#### COMMUNITY/INDIVIDUAL BEHAVIOR CHANGE

In collaboration with Community Planning Groups (CPGs), local STD programs will continue to provide STD expertise to assist the community planning process.

STD programs will develop, in collaboration with other community entities, two projects to enhance community behavioral change.

Provide targeted screening of high-risk populations such as adolescents, incarcerated persons, drug abusers, residents of high morbidity zip codes, etc. in non-STD clinic settings.

#### MEDICAL AND LABORATORY SERVICES

Continue targeted screening of high-risk populations such as adolescents, incarcerated persons, drug abusers, residents of high morbidity zip codes, etc. in non-STD clinic settings. [This objective is also under Community and Individual Behavior Change.]

Assure adequate treatment of 90% of chlamydia (CT) infected and gonorrhea (GC) infected women identified through publicly funded screening sites.

Eighty-five (85%) of in-jurisdiction neonatal and prenatal reactive serologic tests for syphilis (STS) reported will be dispositioned within seven calendar days.

Ensure that 80% of reactive STS from in-jurisdiction laboratories are reported to the local STD program within 7 calendar days of the test result. [This objective is also under Surveillance and Data Management.]

Ensure that 75% of initiated reactive STS are closed to final disposition within 7 calendar days of initiation.

#### PARTNER SERVICES

At least 85% of interviewed early syphilis cases will be interviewed for sex partners, suspects, and associates within 72 hours of confirmation of the case report.

Ensure that syphilis case management activities result in disease intervention for at least 60% of syphilis cases interviewed.

Achieve a partner index of at least 2.0 for early syphilis cases interviewed by DIS.

Locate and provide prevention counseling and partner elicitation (PCPE) to 90% of confidentially tested HIV-positive clients assigned for follow-up to STD staff.

Achieve a partner index of at least 2.0 for newly diagnosed HIV-positive cases interviewed by DIS.

Sex and needle sharing partners to HIV-positive clients will be initiated for prevention counseling and HIV testing. Seventy-five percent (75%) of the initiated new sex and needle-sharing partners of HIV-positive clients will receive HIV testing.

Ensure that 90% of HIV-positive clients provided Prevention Counseling Partner Elicitation (PCPE) successfully complete their first early intervention appointment.

#### LEADERSHIP AND PROGRAM MANAGEMENT

Ensure the availability of personnel and material resources for deployment in the event of the initiation of an outbreak response.

Ensure that the program has systems in place to report morbidity and provide rapid follow-up to high priority cases.

## SURVEILLANCE AND DATA MANAGEMENT

Ensure 85% completion rate of the race and ethnicity elements for chlamydia and gonorrhea reporting. (1999 baseline: chlamydia 76% completed; gonorrhea 81% completed).

Ensure that 80% of reactive STS from in-jurisdiction laboratories are reported to the local STD program within 7 calendar days of the test result.

## TRAINING AND PROFESSIONAL DEVELOPMENT

Collaborate with TDH's Training and Public Education Branch to identify strategies to address perceived and actual barriers to accessing staff training and development opportunities.

This form shall reflect funding from all sources that support the project described in this attachment. See "Detailed Budget Category Forms, Instructions" for definitions of cost categories. For purposes of this form, the column headings have the following meanings:

- Column 1: The amount of funds requested from the Texas Department of Health (TDH) for this project.
- Column 2: Federal funds awarded directly to applicant.
- Column 3: Funds awarded to applicant from other State of Texas governmental agencies.

### **PROGRAM INCOME**

Program Income: Projected Earnings. Applicant shall estimate the amount of program income that is expected to be generated during the budget period.

DEFINITION: Program income is the income resulting from fees or charges made by a contractor in connection with activities supported in whole or in part by a federal/state contract. Program income earned as a result of an effort which is jointly funded by TDH and the contractor is to be shared by TDH and the contractor. A program income allocation plan is the means by which TDH's share is determined. The required formula for a plan is as follows:

$$\frac{\text{TDH's Share of Funding}}{\text{TDH's Share of Funding} + \text{Contractors Share of Funding}} \times \text{Total Program Income Collected} = \text{TDH's Share of Program Income}$$

Contractor shall disburse program income rebates, refunds, contract settlements, audit recoveries and interest earned on such funds before requesting cash payments including advance payments from TDH.

For more information about program income, refer to the Program Income Article in the General Provisions for TDH Grants Contracts and/or request a copy of TDH's Financial Administrative Procedures Manual from the Grants Management Division or on the Internet at [www.tdh.state.tx.us/grants/form\\_doc.htm](http://www.tdh.state.tx.us/grants/form_doc.htm).
